2023 / 2024 - COMMITTEE

CHARACTERS CARAVAN PARK

26 – 28 JANUARY 2024

CHAIR LADY

Sherri Clark
082 6530364

Our first rally for 2024 has come and gone. We had 5 members and family attend this rally.

The weather played its part and what a great weekend we had. Terrance and Debbie were marshals .

Vice CHAIRPERSON

Jason Labuschagne

Friday we arrived during the day and the heat to set up. We had hamburgers on the braai and gathered around and caught up with the time spent apart as our last rally was early December and I think we had a lot to catch up with.

SECRETARY

Terrance Cook
082 825 0344

Early Saturday morning the fisherman/women went down to the beach to see what there is. Deon proved to us that not all the fish had left as he caught a fish. He was very proud of this effort and instead of letting the poor little fish go he decided to bring it back to the campsite and he was going to prepare this as our starters for the lunch time braai.

It took Deon (supervising) and Paul to gut and prepare and fry this fish as we did not want it on the grid with other meat that was going on the braai. I am sure it took them some time possibly an hour and a half and eventually we all had a taste of this.

TREASURER

Saturday evening our usual bring and share braai and once again the great salads from the ladies of the rally.

RALLY CONVENOR

Lauren Labuschagne

Thanks go to the marshals and everyone that contributed to make it a successful weekend.

Our next rally is at Ilanga 16-18 February 2024. We need volunteers to marshal for this rally, please send your names to Shane or any of the committee members. Please note it is not a competition and there is always the incentive of R100 per marshal discount on condition you attend the rally after you have been a marshal. It is not difficult to be a marshal.

Scribe

Shane Slabbert

We hope to see a few more members attend this upcoming rally.

We take this opportunity to wish Debbie and Terrance a great and safe holiday as they will be on the road from 1-28 February.

Charms
